PROFESSIONAL SUMMARY

Aspiring Web Developer specializing in full-stack web development, with experience leveraging AI-assisted tools to streamline development, debugging, and system optimization. Worked with both frontend and backend development, building web application, RESTful APIs, and database-driven systems.

TECHNICAL SKILLS

- | | | |
|--------------|------------------------|--------------------------------|
| • JavaScript | • PostgreSQL | • Responsive Web Design |
| • React.js | • REST API Development | • CRUD Application Development |
| • Node.js | • Git & GitHub | |
| • Express.js | • Render (Deployment) | |

PROFESSIONAL EXPERIENCE

Administrative and Data Management Intern | San Fabian Municipal Office of Population (POPCOM)
April 2025 – July 2025

- Encoded and maintained population records using Microsoft Excel.
- Assisted citizens with inquiries and administrative services.
- Verified and updated demographic data to ensure record accuracy.
- Organized digital and physical documents for efficient retrieval.
- Generated reports and supported office data management activities.

TECHNICAL PROJECTS

Municipal Office of Population Web Portal | Full-Stack Web Developer
August 2025 – February 2026

- Developed a municipal web portal to improve the management, accessibility, and organization of population records and administrative information.
- Designed and built a full-stack web application using React.js, Node.js, Express.js, and PostgreSQL, implementing dynamic interfaces, RESTful APIs, and optimized database schemas.
- Applied the Rapid Application Development (RAD) SDLC model to iteratively design, prototype, and refine system features based on stakeholder feedback.
- Collaborated with municipal stakeholders to gather requirements, validate workflows, and deliver enhancements aligned with real-world administrative processes.

RCLPG Inventory System | Full-Stack Web Developer
June 2026 – Present

- Developed a web-based inventory and sales management system for an LPG retail business, streamlining inventory tracking, sales recording, customer management, and financial reporting.
- Built responsive front-end interfaces using React.js and developed RESTful backend services using Node.js, Express.js, and PostgreSQL.
- Implemented inventory automation features, including stock monitoring, LPG tank exchange tracking, customer credit management, and business analytics.
- Collaborated directly with the client to gather requirements, refine workflows, and deliver system improvements aligned with business operations.

EDUCATION & CERTIFICATIONS

Don Mariano Marcos Memorial State University | Bachelor of Science in Computer Science | Graduated May 2026
Relevant Certifications:

- JavaScript Foundations Professional Certificate by Mozilla (LinkedIn)
- Docker Foundations Professional Certificate (LinkedIn)
